🐙 github.com/isfiaya   📍 Gafsa, Tunisia

JavaScript Developer with 4 years of experience building high-performance, scalable web applications using React, JavaScript, and TypeScript. Specialized in SaaS development (Atlassian add-ons) with a focus on pixel-perfect UI, performance optimization, and clean, maintainable code. Proficient with Redux and Styled-Components, and skilled at collaborating closely with designers and backend teams to deliver fast and exceptional user experiences. Eager to take on senior roles, bringing a commitment to quality and innovation..

🧠 PROFESSIONAL SKILLS

Front-End Development & UI Engineering

- 4 years of experience building scalable, high-performance web applications.
- Specialized in React, JavaScript, and TypeScript with a focus on SaaS products.

Performance Optimization & Clean Code

- Skilled in optimizing front-end performance to enhance speed and user experience.
- Advocate for writing clean, maintainable, and scalable codebases.

State Management & Styling

- Proficient with Redux for managing complex application states.
- Experienced in building modular, reusable components with Styled-Components.

Cross-Functional Collaboration & Agile Delivery

- Collaborated closely with designers and backend developers to deliver seamless, user-centered products.
- Experienced in Agile environments, focusing on fast delivery and continuous improvement.

💼 WORK EXPERIENCE

Front-End Web Developer   04/2023 — present | Sfax, Tunisia

Creativas 🔗

Creativas focuses on enhancing the Atlassian ecosystem (Confluence and Jira), which is widely used for project management and collaboration

- Enhanced Smart Courses for Confluence with a modern, user-friendly interface using React and CSS frameworks, improving usability and driving engagement for 100+ organizational teams
- Developed real-time editing features for Smart Tables with WebSockets and React, boosting team collaboration and earning positive Marketplace feedback
- Optimized Smart Images performance by refactoring React code, reducing load times by 40%, and enhancing UX for thousands of users
- Mentored two junior developers from 2024–2025 on React and UI best practices, fostering team growth and supporting timely product updates

Technologies : React, Redux, JavaScript, Node.js, Express.js, Styled-Components, Atlassian Design System

Front-End Web Developer   11/2021 – 03/2023 | Sfax, Tunisia

Tekab.dev 🔗

Tekab focuses on creating innovative web and mobile applications, positioning itself within the IT services and consulting industry

- Spearheaded the development of a React Native mobile application for iOS and Android, achieving a 4.8-star rating and 10,000+ downloads in the first quarter.
- Architected and deployed a centralized Storybook component library, establishing a single source of truth for UI elements that ensured design consistency across 15+ projects.
- Implemented RESTful APIs and integrated them with back-end services using Supabase and Swagger, ensuring a seamless data flow and reducing API response times.
- Developed dynamic front-end interfaces using Vue.js and React Native, translating Figma designs into responsive, user-friendly code.

Technologies: React, React Native, TypeScript, Nest.js, Vue.js, Supabase, VueX, Element Plus, Storybook

⚛ TECHNICAL TOOLS

Front-End Development

React, Redux, Styled-Components, JavaScript, TypeScript, Next.js, Tailwind CSS

Version Control & Collaboration

Git, GitHub, Bitbucket, Jira, Confluence, Monday.com 🔗

Development Environment & Testing

VS Code, Chrome DevTools, Storybook, Jest

🎓 EDUCATION

Associate Degree In Web Development   08/2019 – 06/2021 | Paris, France

OpenClassrooms 🔗
